

# ENGINEERING MECHANICS 2005

**NATIONAL CONFERENCE  
with international participation**

**May 9 – 12, 2005, Svratka, Czech Republic**

**Editors: Vladimír Fuis, Petr Krejčí, Pavel Švancara**

Organised by:

- Institute of Thermomechanics, Academy of Sciences of the Czech Republic – branch Brno
- Institute of Solid Mechanics, Mechatronics and Biomechanics, Faculty of Mechanical Engineering Technical University of Brno
- Institute of Theoretical and Applied Mechanics, Academy of Sciences of the Czech Republic
- ŽĎAS, a.s., Žďár nad Sázavou
- Engineering Academy of the Czech Republic
- Czech Society for Mechanics
- Association for Engineering Mechanics

## INFORMATION

This CD ROM Proceedings are prepared in Adobe's PDF format (Portable Document File). The Adobe Acrobat Reader software is available in CD ROM.

Documents are connected through hyperlinks, which can be activated by clicking (in the same way as links on Internet web sites). After click on button "Search" you can search specified words in opened pdf file or in all pdf documents placed in chosen directory (all full papers are placed in directory \papers on this CD ROM, all abstracts in directory \abstracts)

Introduction page contains following files:

<a href="#">CD Info</a>	this file
<a href="#">List of papers</a>	in alphabetical order according to the first author
<a href="#">Section</a>	ordering according to the section
<a href="#">List of authors</a>	author's index

[Main menu](#)

## LIST OF PAPERS

Alphabetic ordering according to the first author

---

### A

- Antoš P.:** Experimental investigation of the temperature sensitivity of the hot-wire/film probes and temperature correction ..... [Full paper](#) [Abstract](#)
- Axman P., Florian Z.:** Proposal of electronically controlled torque screwdriver..... [Full paper](#) [Abstract](#)

### B

- Bach P.:** Contribution to calculation of the stability limit of milling considering the complex force coefficient ..... [Full paper](#) [Abstract](#)
- Balík J., Korec L.:** Monitoring of the crack growth in grooved CT-sample by potential method ..... [Full paper](#) [Abstract](#)
- Ballo I.:** Effectiveness of the active and semiactive vibration control systems ..... [Full paper](#) [Abstract](#)
- Bartoš M., Záhorec O., Musil M.:** The comparison of the models of the vibration for cantilever beam with a backstop with the continuously distributed and lumped parameters..... [Full paper](#) [Abstract](#)
- Bayer Z.:** The first variants of a new system of simple, middle accurate approximations of some state variables and derivatives of wet vapor of H<sub>2</sub>O ..... [Full paper](#) [Abstract](#)
- Beláková A., Bartko R.:** Mathematical modeling of heat process in automobile tyre ... [Full paper](#) [Abstract](#)
- Berjak J., Ondrůšek Č.:** The analyse and recognition objects in the picture by phase correlation ..... [Full paper](#) [Abstract](#)
- Bořkovec J., Petruška J., Foret R.:** Numerical simulation of the bolt head trimming process ..... [Full paper](#) [Abstract](#)
- Brdečko L., Zídek R.:** The solution of reinforced concrete slab using nonlocal model ..... [Full paper](#) [Abstract](#)
- Brož P.:** Stochastic theory for strength of concrete ..... [Full paper](#) [Abstract](#)
- Brožovský J., Pankaj P.:** Numerical modelling of trabecular bone ..... [Full paper](#) [Abstract](#)
- Březina T., Pulchart J., Turek M.:** Nonlinear controller with local approximator for active magneti bearing ..... [Full paper](#) [Abstract](#)
- Březina T., Ondroušek V.:** Design of coordination mechanism of walking robot gait controllers ..... [Full paper](#) [Abstract](#)
- Bubák A.:** The kinematic analysis of grinding of workpieces with non-circular cross section shape ..... [Full paper](#) [Abstract](#)

# ENGINEERING MECHANICS 2005

**NATIONAL KONFERENCE  
with international participation  
May 9 – 12, 2005, Svatka, Czech Republic**

- Bubák A., Souček P.:** Reduction of vibration in NC feed drives..... [Full paper](#) [Abstract](#)  
**Budinszky C., Florian Z.:** Stress-strain analyses of total knee replacement ..... [Full paper](#) [Abstract](#)  
**Burša J., Janíček P., Lebiš R.:** Computational modelling of smooth muscle cells..... [Full paper](#) [Abstract](#)

## Č

- Čečrdle J.:** X-dia demonstrator aeroelastic test – design, analysis and model wind tunnel support tuning ..... [Full paper](#) [Abstract](#)  
**Čech V., Jevický J.:** The stochastic excitation model of the controlled system - the rangefinder mounted in the gimbals suspension on the vehicle ..... [Full paper](#) [Abstract](#)

## D

- Dušek D., Pellant K.:** Influence of middle ear cavity wall absorption on mechanics of hearing ..... [Full paper](#) [Abstract](#)

## F

- Feník Š., Blesák P., Starek L.:** Model – based piezoactuator placement design of actively controlled plate ..... [Full paper](#) [Abstract](#)  
**Filip P., David J., Pivokonský R.:** On the relation viscosity vs. shear rate for ageing emulsions ..... [Full paper](#) [Abstract](#)  
**Fischer C., Náprstek J.:** Wavelet decomposition of non-stationary random processes . [Full paper](#) [Abstract](#)  
**Flizikowski J., Holka H., Peszyński K., Tomporowski A.:** Cell phone aided grinder anticipation ..... [Full paper](#) [Abstract](#)  
**Formánek J.:** Transfer of mechatronic systems among different branches ..... [Full paper](#) [Abstract](#)  
**Frankowski P., Jarzyna T.:** Rotor balancing on vibrating base..... [Full paper](#) [Abstract](#)  
**Frankowski S., Frankowski P.:** Mechanical tests of the external fixator of the hand – analyse of the three-dimensional spacing of the bone implants to the stability of bone fracture fixing..... [Full paper](#) [Abstract](#)  
**Frantík P.:** Simulation of stability loss of von misses truss in the state of unsymmetrical stress ..... [Full paper](#) [Abstract](#)  
**Frydryšek K., Halama R.:** Torsion and low-cycle fatigue of materials..... [Full paper](#) [Abstract](#)  
**Fuis V.:** Manufacturing accuracy versus reliability of the hip joint endoprosthesis ceramic head ..... [Full paper](#) [Abstract](#)  
**Fuxa J., Kubala R., Fojtík F., Poruba Z.:** Strength criterion and testing machine..... [Full paper](#) [Abstract](#)

## G

- Gajdošík J.:** Quantitative analysis of fiber composite microstructure ..... [Full paper](#) [Abstract](#)

## H

- Hadaš Z., Singule V., Ondrůšek Č.:** Comparison and assessment of different conception of vibration microgenerator construction ..... [Full paper](#) [Abstract](#)
- Hajžman M., Zeman V.:** Vibration and noise analysis of the gearbox ..... [Full paper](#) [Abstract](#)
- Halama R., Fusek M.:** Applicability of Hertz theory in rolling contact simulations..... [Full paper](#) [Abstract](#)
- Halama R.:** On calibration of a cyclic plasticity model ..... [Full paper](#) [Abstract](#)
- Hejman M.:** Draft of virtual roadway generation by means of computer simulations .... [Full paper](#) [Abstract](#)
- Hlaváč Z., Zeman V.:** Modelling of balancing machine vibration and identification of rotor suspension parameters ..... [Full paper](#) [Abstract](#)
- Hlaváček M.:** Synovial fluid filtration by articular cartilage in the human synovial joints ..... [Full paper](#) [Abstract](#)
- Hlavoň P., Fuis V., Florian Z.:** Stress-strain analyze of an elbow joint..... [Full paper](#) [Abstract](#)
- Hofer T., Šafařík P., Luxa M.:** The flow field in the entrance part of a wind tunnel .... [Full paper](#) [Abstract](#)
- Holka H.:** Determination of the correlation function of the rotary vibration in plane motion ..... [Full paper](#) [Abstract](#)
- Horáček J., Kozánek J., Veselý J.:** Dynamic and stability properties of an aeroelastic model ..... [Full paper](#) [Abstract](#)
- Horák A., Střítecký P.:** Influence of surface roughness on spray cooling intensity in high temperature applications ..... [Full paper](#) [Abstract](#)
- Hortel M., Škuderová A.:** To the analysis of linear and nonlinear damping in gearing systems with impacts ..... [Full paper](#) [Abstract](#)
- Hoření B., Chára Z.:** Application of finite volume method to free surface flow ..... [Full paper](#) [Abstract](#)
- Hrůza V.:** Modeling of vocal folds function in 2D..... [Full paper](#) [Abstract](#)
- Hudeček D., Florian Z.:** Stress - strain analyse of vertebral segment ..... [Full paper](#) [Abstract](#)

## CH

- Chalupa M., Veverka J., Vlach R.:** Design of vehicle track model and dynamic loading simulation ..... [Full paper](#) [Abstract](#)
- Chlup H., Pražák J., Konvičková S.:** Physical model of the human bloodstream system resistance – experimental evaluation ..... [Full paper](#) [Abstract](#)
- Chudý P., Daněk V.:** Computational dynamics of an elastic airplane ..... [Full paper](#) [Abstract](#)

## J

- Janda T., Šejnoha M.:** Generalized formulation of cam clay model ..... [Full paper](#) [Abstract](#)
- Janda Z., Novák J., Šejnoha J., Šejnoha M.:** Nonlinear modeling of arch segment of the Charles bridge..... [Full paper](#) [Abstract](#)

# ENGINEERING MECHANICS 2005

**NATIONAL KONFERENCE  
with international participation**

**May 9 – 12, 2005, Svratka, Czech Republic**

- Jirouš F., Härtel P.:** Steam flow distribution in the separator of VVER 440 ..... [Full paper](#) [Abstract](#)
- Jiroušek O.:** Explicit finite element analysis of human head impacting a rigid surface . [Full paper](#) [Abstract](#)
- Jonáš P., Mazur O., Uruba V.:** A contribution to the similarity study of 3D-flow in a channel with a step expansion of the cross-section ..... [Full paper](#) [Abstract](#)

## **K**

- Kasl L., Brožovský J., Materna A.:** Numerical analysis of administrative building affected by technical seismicity effects..... [Full paper](#) [Abstract](#)
- Keršner Z., Frantík P., Řoutil L. Veselý V.:** Approximation of bending fracture model by load-deflection diagrams ..... [Full paper](#) [Abstract](#)
- Klement M., Hruš T.:** Investigation of contact pressure development in the system cervical implant – bone ..... [Full paper](#) [Abstract](#)
- Knoflíček R., Szabó S., Vyšín M.:** Multiprocessor control system for mobile robot..... [Full paper](#) [Abstract](#)
- Kolman R.:** Dispersion properties of the plane quadratic finite elements in elastodynamics ..... [Full paper](#) [Abstract](#)
- Kopinec M., Houška P.:** Suggestion and optimalization of tilt sensor use complementary filters ..... [Full paper](#) [Abstract](#)
- Koudelka P., Valach J.:** Surface deformation of non-cohesive granular mass due to lateral passive pressure experiment 3/2 - rotation of the structure about the top ..... [Full paper](#) [Abstract](#)
- Koudelka T., Koudelka P., Bittnar Z.:** Slope stability of layered rock mass numerical solution ..... [Full paper](#) [Abstract](#)
- Koukal M., Florian Z.:** Mechanical analysis of contact between ball head and acetabular fossa of total hip prosthesis ..... [Full paper](#) [Abstract](#)
- Krásný I., Leština J.:** Lateral buckling – assessment by codes / FEM..... [Full paper](#) [Abstract](#)
- Krčák P., Dvořák J., Hodál J.:** Mobile robot path planning by means of case graph and genetic algorithms ..... [Full paper](#) [Abstract](#)
- Krejčí P.:** Measurement of nucleation rate in corrosive mixtures..... [Full paper](#) [Abstract](#)
- Krejčí P.:** Omni directional contact sensor ..... [Full paper](#) [Abstract](#)
- Krejčí T., Kruis J., Koudelka T., Bittnar Z.:** Numerical analysis of a reactor vessel: transport processes . ..... [Full paper](#) [Abstract](#)
- Krejsa J., Věchet S.:** Markov localization for mobile robots: simulation and experiment ..... [Full paper](#) [Abstract](#)
- Krejsa J., Věchet S.:** Path planning for four-legged walking robot using rapidly exploring random trees ..... [Full paper](#) [Abstract](#)
- Kruis J., Koudelka T., Krejčí T., Bittnar Z.:** Numerical analysis of reactor vessel: parallel implementation ..... [Full paper](#) [Abstract](#)

# ENGINEERING MECHANICS 2005

**NATIONAL KONFERENCE  
with international participation**

**May 9 – 12, 2005, Svratka, Czech Republic**

---

- Krumphanzl V., Micka M.:** Numerical modelling of interaction between maquette of skull and protective helmet..... [Full paper](#) [Abstract](#)
- Křepela O.:** New way of cutting scrap by container shears ..... [Full paper](#) [Abstract](#)
- Kučerová A., Lepš M., Zeman J.:** Identification of microplane model parameters from experiments in uniaxial compression ..... [Full paper](#) [Abstract](#)
- Kuszyński Z., Peszyński K.:** Elements of pneumatic suspension system of rail-bus ..... [Full paper](#) [Abstract](#)
- Kyncl M., Šuta J.:** Thermal deformation analysis of the toothed rim..... [Full paper](#) [Abstract](#)
- Kytýř D., Jírová J., Jiroušek O.:** Comparative study of FE models of human femur constructed by different approaches..... [Full paper](#) [Abstract](#)

## L

- Lebiš R., Burša J.:** Influence of cell components' stiffness on the results of the simulated indentation test ..  
..... [Full paper](#) [Abstract](#)
- Lehký D., Novák D.:** Inverse FEM analysis II: random parameters identification of reinforced concrete frame ..... [Full paper](#) [Abstract](#)
- Lepš M.:** Multi-objective optimization approach to design of RC frames ..... [Full paper](#) [Abstract](#)
- Liška M., Houška P.:** Design of clashing sensor for mobile robot..... [Full paper](#) [Abstract](#)
- Lobovský L., Horák M., Křen J.:** Meshless modelling of urine flow ..... [Full paper](#) [Abstract](#)
- Lukerchenko N., Kharlamov A., Kvurt Y., Chára Z., Vlasák P.:** Experimental evaluation of the magnus force coefficient of the rotating spherical particle ..... [Full paper](#) [Abstract](#)
- Lukeš V., Hajžman M., Polach P.:** Trolleybus dynamic response and identification of the tire radial properties ..... [Full paper](#) [Abstract](#)

## M

- Macura P., Fiala A.:** The measurement of forces and tensions at strip rolling and coiling  
..... [Full paper](#) [Abstract](#)
- Makovička D., Makovička D.:** The use of ductility reserves of structure bearing capacity in seismic analysis..... [Full paper](#) [Abstract](#)
- Maleček J.:** X-dia demonstrator aeroelastic test..... [Full paper](#) [Abstract](#)
- Marada T., Březina T.:** The effect of selected variables on Q-learning during the control of asynchronous electric motor ..... [Full paper](#) [Abstract](#)
- Matesová D., Lehký D.:** Simulation of three-point bending tests of aluminosilicate mortars after high temperature loading ..... [Full paper](#) [Abstract](#)
- Maxa J., Procházka P., Neděla V.:** Selection of information system for the concerns . [Full paper](#) [Abstract](#)
- Mazur O., Jonáš P., Uruba V.:** Temperature correction for a hot wire concentration measurements in a gas mixture..... [Full paper](#) [Abstract](#)

# ENGINEERING MECHANICS 2005

**NATIONAL KONFERENCE  
with international participation**

**May 9 – 12, 2005, Svratka, Czech Republic**

**Mík V., Šesták J., Kořenář J., Myška J.:** Local pressure drops in the flow of water with micellar additives ..... [Full paper](#) [Abstract](#)

**Minář V., Ficek F.:** Equipment for slow cooling of continuously cast billets ..... [Full paper](#) [Abstract](#)

**Müller J., Malenovský E., Pochylý F.:** Determination of a database of additional effect from Navier-Stokes equation ..... [Full paper](#) [Abstract](#)

## N

**Náhlík L., Keršner Z., Knésl Z.:** Influence of degradation of hardened cement paste on fracture behaviour of concrete ..... [Full paper](#) [Abstract](#)

**Náprstek J.:** Some properties and applications of eigen functions of the Fokker-Planck operator ..... [Full paper](#) [Abstract](#)

**Novák D., Lehký D.:** Inverse FEM analysis I: stochastic training of neural network.... [Full paper](#) [Abstract](#)

**Novák J., Potěšil A.:** Numerical simulations of composed structures with piezoelements ..... [Full paper](#) [Abstract](#)

**Novotný R.:** Some picked connections between stress and deformations invariants in the three dimensional space..... [Full paper](#) [Abstract](#)

**Nowicki K., Kuszyński Z., Peszyński K.:** Voice recognition in robot control -teaching stand ..... [Full paper](#) [Abstract](#)

## O

**Obdržálek V., Vrbka J.:** Buckling and postbuckling behaviour of laminate plates with embedded circular-shaped delaminations ..... [Full paper](#) [Abstract](#)

**Ondrouch J., Kaňák J.:** Analysis of the influence of the layer adjustment design of the plate absorptive damper on noise reduction ..... [Full paper](#) [Abstract](#)

## P

**Pásek M., Christé G., Šimurda J.:** A novel quantitative description of electrophysiological processes in guinea pig ventricular cardiomyocytes ..... [Full paper](#) [Abstract](#)

**Pečínka L.:** Dynamic response of the beam under moving load and axial periodic force and with the damping depending on the amplitude of vibration ..... [Full paper](#) [Abstract](#)

**Pejchal P., Janíček P., Petruška J., Procházka F.:** The analysis of dynamical systems for simulation of relaxation oscillation ..... [Full paper](#) [Abstract](#)

**Pěnička R., Růžička M.:** The fatigue life prediction methods according the structural stresses of welded joint ..... [Full paper](#) [Abstract](#)

**Pohl K.:** Non-linear analysis of number of mode to response of reinforced concrete frame structures ..... [Full paper](#) [Abstract](#)

**Polach P., Hajžman M.:** Influence of the hydraulic shock absorbers model in trolleybus multibody simulations on the suspension deformations and comparison with the experimental results ..... [Full paper](#) [Abstract](#)

# ENGINEERING MECHANICS 2005

**NATIONAL KONFERENCE  
with international participation  
May 9 – 12, 2005, Svratka, Czech Republic**

- Popelka L., Müller M., Matějka M., Nožička J.:** Multicriteria design of sailplane airfoils ..... [Full paper](#) [Abstract](#)
- Potěšil A., Ševčík L., Cvejn J., Lauryn J.:** Impact arrangement for staff and passengers protection equipment system development ..... [Full paper](#) [Abstract](#)
- Prokeš M.:** Isostatic press - manufacturer: Žďas J.S.CO. .... [Full paper](#) [Abstract](#)
- Pulkrábek J., Procházka F.:** Modelling of dynamic characteristics of multi-motor driving system with serial ordering of motors – basic model ..... [Full paper](#) [Abstract](#)
- Půst L.:** Influence of electric motors characteristics on the behaviour of driven systems ..... [Full paper](#) [Abstract](#)

## R

- Radolf V., Vampola T.:** Transfer matrix method for the human vocal fold modelling .. [Full paper](#) [Abstract](#)
- Rak V., Malenovský E., Pochylý F.:** The static and dynamic analysis of journal bearings ..... [Full paper](#) [Abstract](#)
- Rojíček J.:** Probability analysis of problems leading to systems of linear equations ..... [Full paper](#) [Abstract](#)
- Rozehnal D.:** Comparasion of stacionary and nonstacionary aerodynamic characteristics of the airfoil – results of the measurement in the wind tunnel ..... [Full paper](#) [Abstract](#)

## S

- Salga J.:** Airplane level turn at regimes of thrust deficit ..... [Full paper](#) [Abstract](#)
- Sedlák I., Konečná H.:** The contribution to the high-energy piping whip limiter properties optimization ..... [Full paper](#) [Abstract](#)
- Skalka P., Janíček P., Fuis V., Petruška J., Pešlová F., Geprt M.:** Buckling of dynamic brake resistor grid component ..... [Full paper](#) [Abstract](#)
- Skokánek J.:** The deformation stress state theory DSS and the fracture theory DSSf... [Full paper](#) [Abstract](#)
- Slabeycius J., Bartko R., Beláková A.:** Mathematical modeling and experimental investigation of frictional properties of vulcanized rubber ..... [Full paper](#) [Abstract](#)
- Smazal V.:** Hydromechanical curing presses Škoda ..... [Full paper](#) [Abstract](#)
- Somolová A., Zeman J.:** Numerical homogenization of perforated paltes ..... [Full paper](#) [Abstract](#)
- Svoboda L., Rypl D.:** Implementation of microplane model in analysis of RC frames.. [Full paper](#) [Abstract](#)

## Š

- Šípálová M., Kruis J., Štemberk P.:** Application Chen model of plasticity to hardening concrete ..... [Full paper](#) [Abstract](#)
- Šklíba J., Prokop J., Sivčák M.:** About the possibility of the stiffness reducing of a vibroisolation system . ..... [Full paper](#) [Abstract](#)

# ENGINEERING MECHANICS 2005

**NATIONAL KONFERENCE  
with international participation  
May 9 – 12, 2005, Svatka, Czech Republic**

**Šmilauer V., Bittnar Z.:** Micromechanics-hydration model for the elastic properties of a cement paste ..... [Full paper](#) [Abstract](#)

**Štembera V., Maršík F., Chlup H.:** One-dimensional mathematical model of the flow through a collapsible tube with applications to blood flow through human vessels ..... [Full paper](#) [Abstract](#)

**Štemberk P., Kruis J., Bittnar Z.:** Fuzzy dynamic structural analysis of twodimensional frame with fuzzy coefficients ..... [Full paper](#) [Abstract](#)

**Štyl P.:** Slitting shear of wide plate mill ..... [Full paper](#) [Abstract](#)

**Švaříček K., Vlk M.:** A comparison of the procedure ASTM E 837-1 and the integral method for non-uniform residual stresses measuring ..... [Full paper](#) [Abstract](#)

## T

**Tajč L., Bednář L., Poskočilová M., Hoznedl M.:** Exhaust hood for single flow arrangement of steam turbine ..... [Full paper](#) [Abstract](#)

**Tran N. T., Štemberk P., Kohoutková A.:** Method of measuring lateral deformation of solidifying concrete under uniaxial loading ..... [Full paper](#) [Abstract](#)

**Tuhovčák O.:** Reduction method for investigation eigenfrequencies and eigenvectors of mechanical systems ..... [Full paper](#) [Abstract](#)

**Tůma J.:** Transmission error measurements using the real time Hilbert transformer ..... [Full paper](#) [Abstract](#)

**Tumajer P.:** Mechanical properties of a textile materials from the point of view of a weaving process ..... [Full paper](#) [Abstract](#)

**Turek M., Březina T., Pulchart J.:** Some notes on control of asynchronous electromotor by improved Carla method ..... [Full paper](#) [Abstract](#)

## U

**Urban R., Marvalová B.:** Computation of deformation cylindrical air spring sleeve .... [Full paper](#) [Abstract](#)

**Ursíny P.:** Mechanical action in the bodies of textile windings ..... [Full paper](#) [Abstract](#)

**Uruba V.:** On physics of a synthetic jet ..... [Full paper](#) [Abstract](#)

## V

**Valenta R., Šejnoha M.:** Implementation of the Leonov model into FEM ..... [Full paper](#) [Abstract](#)

**Vampola T., Horáček J.:** Influence of geometric configuration of human vocal tract on phonation of Czech vowels ..... [Full paper](#) [Abstract](#)

**Vančo M., Palčák F.:** Analysis of vibration transfer from motor to bottom group of rotary drier ..... [Full paper](#) [Abstract](#)

**Vavrečka L., Petruška J., Horský J.:** Computational and experimental analysis of thermal stresses in grooved roll ..... [Full paper](#) [Abstract](#)

**Vavřík D., Bryscejn J., Holý T., Jakůbek J., Jakůbek M., Valach J., Vykydal Z.:** New experimental setup for study of physical processes preceding specimen failure ..... [Full paper](#) [Abstract](#)

# ENGINEERING MECHANICS 2005

**NATIONAL KONFERENCE  
with international participation  
May 9 – 12, 2005, Svratka, Czech Republic**

- Věchet S., Krejsa J.:** Nonstationary system control using Q-learning..... [Full paper](#) [Abstract](#)
- Věchet S., Krejsa J., Grepl R.:** How to build a robot with no money, merkur, lego and old stepper motor ..  
..... [Full paper](#) [Abstract](#)
- Vejpustková J., Vilímek M., Sochor M.:** Prediction of muscle forces using neural network  
backpropagation..... [Full paper](#) [Abstract](#)
- Vimr J., Švígler J.:** Numerical solution of the compressible turbulent flow through the gap caused by the  
incorrect contact of screw surfaces ..... [Full paper](#) [Abstract](#)
- Vlach R.:** Parametric model of synchronous machine winding cooling by heat pipe ..... [Full paper](#) [Abstract](#)
- Vlček V., Luxa M.:** Preliminary aeroelastic experiments on the profile with two degrees of freedom  
..... [Full paper](#) [Abstract](#)
- Volek J., Soukup J.:** Investigation of influence of asymmetry in case of the vibration of a resiliently  
supported plate – application on the vibration of vehicle V ..... [Full paper](#) [Abstract](#)
- Vyčichl J., Jiroušek O.:** Interaction of pelvic bone and acetabular component..... [Full paper](#) [Abstract](#)
- Vysloužil T., Kotoul M.:** FE analysis of growing crack of fibre reinforced composites specimen with  
chevron notch under three point bending..... [Full paper](#) [Abstract](#)

## W

- Wawrzyniak S., Peszyński K.:** Examinations of the impact of synthetic jet on axisymmetric nozzle output  
jet ..... [Full paper](#) [Abstract](#)
- Wawrzyniak S., Peszyński K.:** Preliminary study into thermal properties of controlled axisymmetric  
nozzle ..... [Full paper](#) [Abstract](#)

## Z

- Záruba J., Štemberk P.:** Long-term monitoring of dynamic response of engineering structures  
..... [Full paper](#) [Abstract](#)
- Zavadil R., Zalaba D.:** Manipulators intended to centre and transfer railway wheel forgings  
..... [Full paper](#) [Abstract](#)
- Zelenka J.:** Elimination of unstable running behaviour of motor working car MPV 22 at Czech railways  
corridor lines ..... [Full paper](#) [Abstract](#)
- Zidek R., Brdečko L.:** New method for analysis of rheology of concrete structures ..... [Full paper](#) [Abstract](#)
- Zima P., Sedlář M., Maršík F.:** Modeling the effects of cavitation in pumps ..... [Full paper](#) [Abstract](#)
- Zubík P., Šulc J.:** Analysis of the internal structure of flow in a channel with negative step  
..... [Full paper](#) [Abstract](#)

## Ž

- Žajdlík J.:** Design fingers antropomorphic prosthesis hand and motion control ..... [Full paper](#) [Abstract](#)
